THE NEW JEFFERSON HOSPITAL  
OPENED JUNE, 1907

REPORT  
OF THE  
JEFFERSON HOSPITAL

For year ending May 31, 1918  
Forty-first Year

GENERAL HOSPITAL  
Cor. 10th and Sansom Streets

MATERNITY HOSPITAL  
224 South Seventh Street

MATERNITY DISPENSARY  
2545 Wharton Street

DEPARTMENT FOR DISEASES OF THE CHEST  
236-238 Pine Street

PHILADELPHIA

1918

THE JEFFERSON HOSPITAL receives the injured and sick irrespective of race, nationality or religion.

Patients desiring admission should apply at the Hospital between 8 A. M. and 5 P. M., or to any member of the Medical Staff.

Cases of recent accident occurring in Pennsylvania are admitted at any hour of the day or night.

The insane, and patients suffering from contagious diseases or alcoholism are not received; except when temporary relief is possible, incurable cases are not admitted.

The Maternity Hospital is located at 224 West Washington Square, with a dispensary at 2545 Wharton Street. Women are received and cared for during confinement, or attended at their homes.

The Department for Diseases of the Chest is located at 236 and 238 Pine Street. Patients with advanced pulmonary tuberculosis only are admitted to the wards.

# The Year's Work

## A SUMMARY

Patients admitted, 8,221

Patients treated, 8,576

Surgical operations, 4,297

The Maternity has administered to 3,566 women ;  
1,676 babies

The Department for Diseases of the Chest has admitted 267  
patients to wards and 2,949 visits were made to the Dispensary

Dispensaries, 27,671 patients ; 102,492 visits

Prescriptions filled in Dispensary Drug Store, 29,455

In all public departments, 49,295 patients

Average patients per day in all public departments, 653.8

## The Jefferson Hospital

The past year has been one of the most important in the history of the Jefferson Hospital. The work of the Institution as a civilian relief agency has not only increased, but many war-time activities have enlarged its field of usefulness.

A statistical summary of the forty-first year of the Jefferson Hospital shows that 8,576 patients were treated in the Hospital. The 8,576 patients received 125,334 days of treatment.

In the wards 71 per cent. of the patients were treated free and the remainder contributed approximately one-half of their actual cost of maintenance.

The dispensary admitted 27,671 patients. The emergency ward treated 16,425 patients, being 534 patients more than last year.

Within the doors of this Institution during the past year 52,317 new patients were treated. An average daily number of 726 patients were treated in all departments.

The total expenses for the year were \$381,077.33, an increase of \$61,550.14 as compared with the previous year. The increased cost of provisions, drugs, surgical supplies and labor have added greatly to the operating expenses.

The cost of maintaining hospitals is increasing each year. Because of the charitable work done, a hospital is only able in part to do as a business corporation would, namely, to increase the cost of the product to meet the greater expense of production.

### Gifts Received During the Year

Mr. William H. Donner contributed \$5,000 to endow a bed in the Maternity Department in memory of Dora Browning Donner and William Henry Donner.

The Will of Harriet C. Prevost bequeathed \$25,000 to the Jefferson Hospital in memory of her husband; and \$5,000 to endow a bed in the name of her father, Charles Mallett Prevost.

## During the Past Year

Perhaps the most important work of the year was the organization and equipment of a Base Hospital for the United States Government. This Unit, known as Jefferson Base Hospital No. 38, has been with the American Expeditionary Force in France since last June. Under the able direction of our former Medical Director, Dr. W. M. L. Coplin, Base Hospital No. 38 was organized and equipped at an expenditure of approximately \$110,000. It is with grateful appreciation that we acknowledge the various gifts of money and of materials which made it possible to organize this relief agency, particularly the initial gift of \$50,000 from Mr. Henry C. Gibson and Mrs. Adaline P. Gibson, which was secured through Dr. J. Norman Henry.

Letters from the front would indicate that our doctors and our nurses are doing work of the first importance in the care of the sick and wounded. At the present time we are unable to give details as to their activities. When a full account is permissible we will know that the name of Jefferson Hospital has been honored by our representation overseas.

### The Louis Clark Vanuxem Memorial X-Ray Department

This department was completed and occupied during March, 1917, and is a splendid tribute to the benefactor, Louis Clark Vanuxem, a Trustee of the Hospital for a number of years, who so generously contributed \$25,000 to establish this department. The laboratory is modern, complete and possesses many unique and desirable features not ordinarily found in X-Ray departments. Every known facility that would add to the efficiency of X-Ray has been embodied in the plans and equipment of the Department.

There are ten large rooms, four of which are operating rooms, and eight smaller rooms. The floor space occupied by the department is 2,500 square feet.

The operating rooms are so arranged that general radiographic treatment, and fluoroscopic operations can be conducted at the same time without interference. The three

transformers supplying the current for the operating rooms are all in one room with independent ventilation so that the disagreeable odors from the motors and transformers, as well as the noise, are practically eliminated.

Unusual precautions have been taken for the protection of the operators and assistants. The operating switches are in rooms adjoining the radiographic and treatment rooms, and the intervening walls and doors are leaded. The operator observes his exposure through lead glass windows and communicates with his patients by means of speaking tubes.

The fluoroscopic room and one of the radiographic rooms are so arranged that private patients do not come in contact with other divisions of the department, since they communicate directly with the private waiting room.

The developing room is far removed from the points where X-ray tubes are excited, the plates being entirely protected from scattered X-rays. There is a complete lantern-slide outfit in this room and also a blower for ventilation as well as for drying plates.

The demonstrating room is especially well equipped and adapted for a teaching laboratory, since by means of a specially constructed view-box a large number of plates may be viewed without handling.

The members of the staff have access to this room and can study the plates of their patients without interfering with the work in other parts of the laboratory.

The entire department, because of its size and arrangement, is well adapted for teaching purposes.

#### **Convalescent Home (Ivycroft Farm)**

Ivycroft Farm, the Convalescent Home of the Jefferson Hospital which was established a year ago by the Social Service Committee of the Women's Auxiliary, has, in the splendid work accomplished, fully justified its existence. The farm is situated within one mile of Wayne, Pennsylvania, and consists of fourteen acres. The location is ideal and readily accessible. To those familiar with the difficulty of obtaining convalescent care, especially for men, it will be apparent that

the Farm solves a pressing need. The Jefferson Hospital takes great pride in the additional facilities which the Home offers in solving the economical problem of convalescence.

The financing and the administration of the Home is conducted entirely by the Social Service Committee of the Women's Auxiliary and they offer to male patients of the Jefferson Hospital the privilege of a wholesome convalescence. The spirit of the patients is the greatest testimonial to the value of this work.

A more detailed description of the work of Ivycroft Farm will be found under the report of the Social Service Committee and Department, page 32.

#### **The Department of Radium Therapy**

This department, founded through the generosity of Mrs. Lucy B. Henderson, has been most active during the past year. 770 treatments have been given and 53 new patients have been examined and treated.

Of the number of new patients 28 were treated for carcinoma, 1 for sarcoma, 9 for epithelioma, 8 for angioma and 10 for various other diseases.

Because of the increasing demand for Radium treatments and the great need of sufficient Radium to meet the demand it is confidently hoped that our good friends will contribute to this good work so that funds may be raised to procure additional amounts.

#### **Training School for Nurses**

Foreseeing the scarcity of nurses that must follow as the ultimate result of the great number that have entered the military hospitals abroad, the Trustees authorized changes in the Nurses' Home which provides accommodation for eighteen additional pupil nurses. That the women of the country are awake to the opportunities to serve in the world's war is evidenced by the fact that the number of applicants for admission to the Training School for Nurses has exceeded that of all other times. Many women, never before interested, have come to realize the opportunities of serving which the nurse's training provides.

Our pupil nurses have responded nobly to the greatly increased work by reason of the scarcity of graduate nurses, who were called into the service.

REPORTS—Detailed, statistical and financial reports of the Hospital will be found on page 47.

### **Private Floor Service**

Patients desiring the privacy or luxury of a private service may obtain in the Jefferson Hospital a room with or without bath, single or ensuite, and so arranged that visiting relatives or friends may occupy apartments immediately adjacent to the patient.

Electro-therapeutic and hydro-therapeutic treatments, private reception rooms and parlor, roof garden, private operating room, sun parlor, diet kitchen and facilities for private care of maternity cases are also available.

Special nurses are supplied at reasonable rates, the Hospital making no extra charge except for board. The Hospital is equipped to care for eighty-six private and semi-private patients.

The private floor service has been more in demand during the past year than at any time in the history of the Institution. The question of affording a service on the plan "of a large hotel for the sick" is no longer an experiment, as has been proven by the demand for this kind of service.

The number of private room patients admitted during the past year was 3,052.

Each succeeding year will find the public making an increased demand for private rooms in hospitals.

### **Provisions for the Professional Care of Patients**

The fifteen departments of the Jefferson Hospital, including the dispensaries, are under the immediate supervision of 23 members of the visiting staff and over 135 assistants.

The Resident Staff comprises 16 physicians, including a Chief Resident Physician. Nursing is supplied by a Directress of the Training School, Assistant Directress, 15 Graduate Nurses and 135 Pupil Nurses.

The institution maintains two fully equipped pharmacies at the general hospital and one at the Department for Diseases of the Chest, supervised by two registered managers and three qualified assistants. The magnitude of this service may be appreciated when it is stated that, exclusive of the house and operating room service, 29,455 prescriptions were filled last year.

The Jefferson Hospital maintains two automobile ambulances which respond to calls received from every section of the city and suburbs. Patients coming from a distance are speedily conducted to the Hospital.

### **Department for Diseases of the Chest**

The Department for Diseases of the Chest was acquired in 1913 by the purchase of the buildings formerly occupied by the Henry Phipps Institute and located at 236-238 Pine Street. These buildings were completely renovated and modernized at a cost of over \$20,000, and in their present condition afford every facility for the efficient care of patients suffering with diseases of the chest. The new department contains ample space for dispensary treatment of ambulatory cases, while the wards provide forty beds which are devoted to the care of those suffering with advanced pulmonary tuberculosis.

The work of the department deals largely with the general problem of tuberculosis. The need for such a department doing this sort of work must be evident when it is recalled that one in every ten persons dies from tuberculosis, and in the State of Pennsylvania alone 9,000 persons die annually from this disease. The incontrovertible fact that the Department for Diseases of the Chest of Jefferson Hospital is fulfilling a need of the community is evidenced by the long waiting list of patients applying for admission to its wards, which have been filled to capacity since the opening. One of the fundamental methods which authorities agree is necessary if we are to make any headway whatever in the control of the "Great White Plague" is the isolation and segregation of the advanced, indigent and dangerous consumptive.

For this purpose there is a total lack of hospital facilities in the State of Pennsylvania. The Board of Trustees of Jefferson Hospital, always anxious that the institution should take an active part in matters of public health, and realizing fully that special tuberculosis work meant added financial responsibility—a responsibility all the more weighty in view of the current deficit in its funds—felt that so important a community need should be considered, and proceeded with organization of the department in the hope that the State of Pennsylvania and private benefactors would contribute toward its support.

The work is a charity in its truest meaning, and its scope, like that of the general hospital, is limited only by the funds available. In addition to the medical care of the patient in the wards and in the dispensary, the home condition is investigated by trained nurses and workers acting under the direction of the Social Service Department. The members of the family not yet victims of the disease are given directions to secure their health. Those exposed to the patient are directed to report to the dispensary for examination to discover incipient cases. When incipient cases are found sanatorium care is arranged for. Arrested cases are taught how to prevent relapses. The abnormalities of environment which predispose toward disease are corrected.

The activities of this department are humanitarian in the widest sense. During the past year 267 patients were cared for in the wards; 9,652 patient days' treatment were administered and 2,949 dispensary visits were made by out-patients.

Because of the lack of funds the department was compelled to close the wards during the summer months, however, with a continuance of the Dispensary and Social Service Department. During the four years in which this department has been in operation 1,160 patients have been cared for in the wards and 3,517 patients in the dispensary.

## **Medical Report of the Maternity Department Jefferson Hospital**

**For the Year Ending May 31st, 1918**

The Maternity Department of the Jefferson Hospital (The Jefferson Maternity) is situated at 224 South Seventh Street, near the corner of Locust and Seventh Streets, on West Washington Square. Its telephone is Bell, Walnut 494, and a direct wire connects it with the Jefferson Hospital, Filbert 2510. The Jefferson Hospital ambulance answers its calls. It is open day and night throughout the year. Daily, Sundays excepted, between 12 o'clock, noon, and 1, members of the staff are present to consult with patients. Emergency cases are received at any time. The Out-Patient Department gives service to those who cannot enter the institution.

The Jefferson Maternity Dispensary is maintained at 2545 Wharton Street (Twenty-sixth and Wharton). Three times weekly from 3 to 4 P. M. physicians are in attendance to give advice to women concerning themselves and their children. Two assistants from the Dispensary Staff sleep at the Dispensary to answer night calls and attend cases in the house of patients.

During the past year 305 mothers were admitted to the Maternity; 1444 mothers applied for advice and treatment and received pre-natal care. In the Out-Patient service 1139 patients applied for medical care.

During the past year 78 operations of various sorts were performed.

In the wards of the Maternity during the past year occurred four deaths from the various complications of parturient. All of these patients were critically ill on admission. No fatal illness developed in the Maternity.

Owing to limited space the work of the institution is greatly hampered. A conservative estimate at the present time would indicate that the Maternity service is doing one-third the work which it would do under suitable accommodations. Especial care is necessary in the cramped quarters to

maintain cleanliness and prevent infection, and these conditions greatly increase the labor of the nursing and attendant staff.

THE WHARTON STREET DISPENSARY. During the past year 678 mothers and 232 children received attention. Complicated cases in this service are sent to the Maternity, and those which can be safely attended at home are retained in the Dispensary service. There were no maternal deaths during the year in this service.

The Dispensary gave practical instruction to 82 medical students during the year.

VISITING NURSES. The Visiting Nurses of the Maternity made 1,264 calls during the year, and the number made by the two Visiting Nurses from the Dispensary and Maternity was 4,511. This work is essentially Social Service, for not only do the Nurses get medicine for the patients, but they distribute clothing and give advice and help in many ways.

SERVICE TO THE NATION. The Maternity Department of the Jefferson Hospital renders service to the Nation by caring for poor mothers, and at the present time, by giving accommodation and treatment to the wives of soldiers, sailors, marines, aviators and those working in industrial government service.

It gives practical clinical training to physicians and nurses, and as this improves mortality and morbidity lessen. It co-operates with other institutions to preserve the general health of the population. This is especially marked in its pre-natal work.

EDWARD P. DAVIS,  
*Medical Director.*

## **The Jefferson Maternity Trained Nursery-Maids**

**Founded 1895**

These maids are graduates of a course of four months' training in the Maternity Department. They are admitted to the course only after a careful examination of their characters, dispositions and physical conditions, and must be not less than eighteen years old.

Their training covers the care of infants of all ages, including older children, and requires neatness, absolute cleanliness and obedience, qualities essential in nursery-maids of a higher order.

### **Duties of a Nursery-Maid**

After a nursery-maid has completed her course of training and has been found thoroughly satisfactory in every respect, and fully competent to take charge of a baby or an older child, she is recommended for a position, on the understanding that she will faithfully perform all her duties and conform to the following regulations:

Among her duties will be: The preparation of the baby's food in accordance with written directions from the attending physician, parent or some other responsible person; the care of the child; the care of the bottles; the washing of the baby's flannels and diapers.

She must wear her uniform, consisting of a wash dress, cap, collar, and apron with strings, bib and straps. The color and material of her dress may be that of a Jefferson trained nursery-maid (blue-checked gingham) or white, at the discretion of her future mistress. The uniform is adopted in order to dignify the position, and to show that the maid has completed a course of recognized training.

Absolute neatness and cleanliness of person is required.

She must understand plain sewing and mending.

The nursery-maid shall not leave a place without giving two weeks' notice and can require the same for herself from her mistress.

The nursery-maid, although receiving her training at an authorized training school for nursery-maids, must not forget that she is a maid, though of high class, and must conform to the customs and rules for the maids in the household in which she may be placed, such as eating in the kitchen, taking her day out, etc.

The wages of the nursery-maid shall be twenty-five dollars (\$25.00) a month, for the first year after leaving the Maternity.

Applications for nursery-maids should be made to Miss Martin, Head Nurse of the Maternity Department of the Jefferson Hospital, 224 South Seventh Street. If the maid proves satisfactory, a fee of not less than five dollars (\$5.00) is, at the end of one month, payable to the chairman of the Committee. This fee is for the benefit of the Maternity Department. No fee is charged the nursery-maids.

During 1917 there were 104 applications for nursery-maids, and 8 positions were filled. Forty-five young women applied for training, of whom three were accepted, and took their training. Three diplomas were given and ten of the older graduates returned for new positions.

It is the custom of the Committee to give diplomas only to nursery-maids who prove their fitness by one year's successful work in private families after leaving the institution.

## **Sixth Annual Report of the Social Service Department**

### **Staff of Social Workers**

MISS HELEN L. HILLARD, R.N.,  
Director of Social Work.

MISS HELEN S. GIEBEL, R.N.,  
Medical Clinic and Wards.

MRS. LOUISE PASQUAY, R.N.,  
Admission Desk.

MISS ESTELLE WASSON,  
Surgical and Orthopedic  
Clinics and Wards.

MISS ELEANOR FINCKEN,  
Worker in Charge Department for  
Diseases of Chest.

MISS SUE G. MURPHY, R.N.,  
Children's Clinic and Ward

MRS. MILLICENT H. MAULL,  
Department for Diseases of  
Chest.

MRS. JESSIE BATON,  
Stomach Clinic and Clinical  
Medicine,

MISS MABEL BENEZET,  
Secretary.

During the past year the Social Service Department, like other social agencies, has suffered from many changes of staff and the difficulty of obtaining volunteer workers on account of the many demands for war workers. This has tended necessarily to check the work to a certain extent.

In the children's clinic special attention has been given to victims of infantile paralysis. The work of caring for the crippled children and supervising their home care has gone steadily on. The clinic instruction and home visits have been carried on with good results. A brief case history is impressive:

An unmarried mother brought her little boy to the clinic for treatment. The mother had been living a very irregular life. She had had several children, only one of whom was living. She had been under the supervision of the court and had lost all connection with her family. She seemed anxious to change her way of life, and the worker succeeded in finding her three brothers who were willing to help the girl make a new start. They established a home, putting the sister in charge. The venture has been a complete success. The sister and brothers have been happy in their life together and the little boy is growing up under good physical and moral conditions.

A special worker was assigned for three months to work in the gynecological service. The need for such a worker has become evident in the large number of cases which are brought to our attention. It was particularly helpful in the matter of following up clinic and ward patients to insure their return for necessary observation and treatment.

The work in the medical clinics and wards has gone steadily on in its many related medical and social aspects. The problem of finding convalescent care for men has been happily solved in the successful development of Ivycroft Farm at Wayne. A large number of men from the medical and surgical wards and from the dispensaries have enjoyed its hospitality. During the latter part of the year we have also admitted to Ivycroft a number of patients sent by other hospitals and social agencies.

An important feature in the work of the surgical and orthopedic clinics is the assistance given in the securing of expensive surgical appliances. In many instances, patients who cannot pay at once for a costly brace or other apparatus can meet the expense if the payments can be made on easy terms. In such cases an investigation is made by the social worker, and if the result is satisfactory, payment for the apparatus is guaranteed. A substantial initial payment is made and an agreement is entered into to make regular payments until the full amount is paid. In this way the worker becomes responsible for the collection of the amount and personal contact is maintained to see that the payments do not lapse.

The dietitian, whose special work is in the stomach clinic, continues to find abundant opportunity for service, both in instruction and suggestions given in the clinic and in home visits for investigation of conditions and instruction in food values and preparation of food.

The admission desk has definitely proved its worth, both to the Hospital and to the Social Service Department, and is regarded as an indispensable feature of the work.

In the work of the Department for Diseases of the Chest

steady and marked progress has been made. The workers have been called upon more than ever before to assist the various welfare agencies in the disposition of their cases. They have also been called upon by the American Red Cross and by manufacturing and industrial plants for examination and reports in the handling of their cases.

A new departure in the colored clinic was the introduction of colored volunteer workers.

This Department now maintains a separate clinic for colored patients under the medical direction of a colored physician and the social problems are investigated by colored social workers.

We wish to make grateful acknowledgment for donations of food, clothing, books, toys and flowers, etc., etc., and for the financial contributions acknowledged in detail elsewhere.

# The Women's Auxiliary

MRS. ROBERT E. HARE, *Chairman*.

MRS. HOBART A. HARE, *Vice-Chairman*.

MRS. HORATIO GATES LLOYD, *Secretary*.

MRS. FRANK S. EVANS, *Treasurer*.

The Women's Auxiliary is divided into four general committees—Hospital, Maternity, Nurses' Home and Social Service.

## The Hospital Committee

MRS. ROBERT E. HARE, *Chairman*.

This committee through its sub-committees for public wards, private rooms, nursery and children's ward attend to the general welfare of the main hospital, and give personal attention to many details for the comfort of the patients.

## Sub-Committee on Public Wards

MRS. B. DOBSON ALTEMUS, *Chairman*.

MRS. WINFIELD S. ARTER,	MRS. ROBERT E. HARE,
MRS. DANIEL BAUGH,	MRS. MAHLON HUTCHINSON,
MRS. GEORGE W. BOYD,	MRS. ALBA B. JOHNSON,
MRS. EDWARD BLABON,	MRS. FRANK G. KENNEDY,
MRS. WALTER D. BLABON,	MRS. E. J. KLOPP,
MRS. FRANKLIN BAKER, JR.,	MRS. D. BRADEN KYLE,
MRS. P. BROOKE BLAND,	MRS. CHARLES M. LEA,
MRS. J. PRIESTLEY BUTTON,	MRS. DAVID LEWIS,
MRS. J. CHALMERS DaCOSTA,	MRS. FIELDING O. LEWIS,
MRS. HOWARD A. DAVIS,	MISS ANNA J. MAGEE,
MRS. J. LESLIE DAVIS,	MRS. WILLIS F. MANGES,
MRS. FRANK S. EVANS,	MRS. JOHN S. MUCKLE,
MISS ALICE GILPIN,	MRS. J. RUTHERFORD McALLISTER,
MRS. WILLIAM E. GOODMAN, JR.,	MRS. THOMAS McCRAE,
MRS. EDWIN E. GRAHAM,	MRS. EDWARD A. SCHMIDT,
MRS. H. F. HANSELL,	MRS. S. MACCUEEN SMITH,
MRS. HOBART A. HARE,	MRS. JOSEPH W. WEAR,

MRS. ROLLIN H. WILBUR.

The wards throughout the year have been filled with patients. Clothing has been supplied during the season to patients at the Chest Department as well as in the general

wards. Christmas and Easter were made cheerful for those unfortunate enough to be ill at these seasons.

### **Sub-Committee on Private Rooms**

MRS. ROLLIN H. WILBUR, *Chairman.*

MRS. B. DOBSON ALTEMUS,	MRS. HOBART A. HARE,
MRS. MAHLON HUTCHINSON,	MRS. ROBERT E. HARE.

The private rooms have been in great demand throughout the year, and nothing but favorable comment has been heard. The diet kitchen, always under the inspection of the committee, has been better than ever; the food was well selected, and daintily served, great attention being paid to the appearance of the trays, as well as the quality of the menu.

### **Sub-Committee on the Children's Ward**

MRS. SIMON GRATZ, *Chairman.*

MRS. ROBERT E. HARE,	MRS. CHARLES M. LEA,
MRS. DANIEL BAUGH,	MISS ALICE GILPIN,
MRS. ROLLIN H. WILBUR,	MRS. ALBA B. JOHNSON,
MRS. EDWARD E. GRAHAM,	MISS ANNA J. MAGEE.

During the past year the Children's Ward has received the usual careful attention from doctors, nurses and the committee. Seven hundred and sixty-seven cases were treated. All necessary clothing, including shoes, has been supplied by the committee and many thanks are due St. Stephen's Benevolent Society for the numerous garments they have made for us.

Donations will be found in the Hospital Report.

### **Maternity Committee**

MRS. EDWARD PARKER DAVIS, *Chairman.*

MRS. EDWARD H. WEIL, *Vice-Chairman.*

MRS. JAMES B. CORYELL, *Secretary.*

MRS. JOHN M. FISHER, *Treasurer.*

MRS. A. CRAWFORD ALLISON,	MRS. D. L. HEBARD,
MRS. CHARLES E. COXE,	MRS. JAMES S. ROGERS,
MRS. J. C. DACOSTA, JR.,	MRS. ALBERT H. ROSENGARTEN,
MRS. WARREN B. DAVIS,	MRS. W. FIELDING WILCOX,
MRS. JOHN H. GIBBON,	MRS. C. WENDELL WOODWARD.

## **Annual Report of the Secretary of the Maternity Committee of the Women's Auxiliary of Jefferson College and Hospital**

The twenty-sixth Annual Report shows that the work during the past year has been unusually great and complicated by war conditions. The demand for hospital accommodation has been greatly increased, while the staff has been depleted by those going into service. The call for accommodation has far exceeded the supply, and at times patients have been obliged to sleep at night upon the examining tables.

A considerable number of the wives of men in various branches of military service have applied for treatment. The Maternity co-operates with the Red Cross and other organizations in war work.

From May 31st, 1917, to May 31st, 1918, 1,444 patients applied for admission, of whom only 305 could be accommodated. The remainder were attended at their homes or referred to other hospitals.

Miss Pullen, Visiting Nurse at the Maternity, made 1,264 calls during the year, and Miss Ott, Visiting Nurse at the Dispensary, 3,247 calls. One of the most valuable features of the work of the Visiting Nurses consists in the distribution of clothing to mothers and children. Such contributions are solicited by the Maternity and the supplies are carefully distributed.

We regret to report the resignation, from the Nursery Maids Committee, of Mrs. James S. Rogers, who for a number of years has done virtually the work of the Committee with great efficiency. There were 104 applications for nursery-maids during the year and only 13 positions filled. The salaries of nursery-maids have been increased to \$35.00 per month and an advertisement of this fact brought a sufficient number of applicants for training. The Maternity Committee provided the usual Christmas Fund for patients and nurses.

We gratefully acknowledge Mr. William H. Donner's

gift of bonds worth \$5,000 to endow a bed in the Maternity Department.

During Mrs. Davis' absence, Mrs. Albert Rosengarten has acted as Chairman of the Maternity Committee. Mrs. Edward A. Schumann and Mrs. D. W. Kilduff have been elected to membership.

Although the Maternity has been greatly overcrowded, the results obtained have been excellent. This fact is a testimonial to the efficiency of Miss Martin, and under her direction, the nursing staff.

MARY B. M. CORYELL,  
*Secretary.*

### **Nurses' Home Committee**

MRS. D. L. HEBARD, *Chairman.*

MISS ANNA J. MAGEE, *Vice-Chairman.*

MRS. PERE WILMER, *Secretary.*

MISS HELEN E. MAYER, *Treasurer.*

MRS. B. DOBSON ALTEMUS,  
MRS. EDWARD PARKER DAVIS,  
MRS. JOHN C. DAcOSTA, JR.,  
MRS. SIMON GRATZ,  
MRS. HOWARD F. HANSELL,  
MISS ANNA J. MAGEE,

MRS. JOSEPH PRIESTLEY BUTTON,  
MRS. EDWARD H. WEIL,  
MRS. J. LESLIE DAVIS,  
MRS. WILLIAM E. GOODMAN,  
MRS. S. MACCUEEN SMITH,  
MRS. C. WENDELL WOODWARD.

The Nurses' Home Committee submits the following report:

On May 9th we graduated 29 nurses, the Ladies' Committee giving the entertainment. During the year the nurses going with our Unit had various useful gifts given them, and \$100.00 was given to the Dentistry Department. The nurses asked that the Living Room be renovated instead of the usual Christmas presents and the Committee has made it most attractive. Twenty-one nurses subscribed for \$1,600 of Liberty Bonds. Our Treasurer reports receipts of \$941.19, and disbursements of \$742.34, leaving a balance of \$198.85. This added to the balance of last year of \$180.31 gives a balance May 1st of \$379.16.

## Report of Social Service Committee of the Women's Auxiliary

MRS. DANIEL BAUGH,	MRS. F. X. DERCUM,
MRS. HOWARD A. DAVIS,	MRS. J. LESLIE DAVIS,
MRS. HORATIO GATES LLOYD,	MRS. JOHN F. MUCKLE,
MRS. THOMAS McCRAE,	MISS GERTRUDE GOFF,
MRS. PHILIPPUS W. MILLER,	MRS. B. B. VINCENT LYON,
MRS. FRANKLIN BAKER, JR.,	MRS. JOSEPH PRIESTLEY BUTTON,
MRS. EDWIN E. GRAHAM,	MRS. WALTER LEE,
MRS. HOLLISTER STURGIS,	MRS. E. J. KLOPP,
MRS. JOHN CHALMERS DACOSTA,	MRS. QUINCY A. GILMORE,
MRS. DAVID LEWIS,	MRS. J. PARSONS SCHAEFFER,
MISS ANNA MAGEE,	MISS OLIVE PARDEE,
MISS ALICE GILPIN,	MRS. JAMES FORNEY,
MISS ANNE HINCHMAN,	MRS. WILLIAM H. GREENE,

MRS. EDWARD A. SCHMIDT,	MISS LILA T. FISHER,
MRS. WALTER BRYANT,	MRS. JOSEPH W. WEAR,
MISS MARY E. CONVERSE,	MRS. JOSEPH B. MCCALL,
MISS J. RUTHERFORD McALLISTER,	MRS. ALBA B. JOHNSON,

*Chairman.*

It is singularly difficult to confine the report of this Committee to the limits of a written statement. The work should be described, with the aid of exhibits, human and otherwise, by those who have done it in order to convey its real scope. The results are so far-reaching and so striking that a formal report can only suggest them.

The possibilities of the work have continually enlarged and the way has always opened up for us to meet them. The Committee on Ivycroft Farm, Mrs. J. Priestley Button, chairman, has much to report in the way of accomplishment, for Ivycroft has far surpassed our expectations in its usefulness to the Hospital and to its beneficiaries. It was opened a year ago, for the need had been greatly felt of a place to send convalescent men where they might have out-door life, good food and sympathetic care. We took as our ideal the Burke Foundation, at White Plains, N. Y., the great, highly endowed convalescent institution where the old plan of coddling patients has

been abandoned and the desire is to produce an atmosphere of "self-help, self-respect, self-mastery and the urge to normal life." To this end only those are taken who can be rehabilitated and again become wage-earners, home-makers and citizens.

Patients have been kept for any period necessary for their complete recovery, or, as in the cardiac cases, until they have been able to return to their accustomed work. Through the kindness of a friend it has been possible to have the services for one day of each week of Mr. Ralph Johnson, of Girard College. He has directed the work of the patients, for great stress has been laid upon the value of occupational therapy and the results obtained have been most satisfactory. The activities have been outdoor work, rag carpet and rug weaving, hammock and laundry bag making, chair caning, basketry, the manufacture of flower boxes, both of wood and cement; toys, etc. There has been no profit in this, as the patients as a rule do not stay long enough to become proficient and the materials are expensive, but the results have been curative and helpful in the highest degree.

Ivycroft is proud of its service flag with three stars, two of which stand for men who probably could not have joined the ranks had it not been for the care received there, one having spent four months at the Farm after a serious operation.

The moral effect is two-fold—first, the increased strength that comes from renewed vitality rightly directed, and, second, the value of a background of personal interest. Some of these men have never had a home and their letters and visits to the Superintendent show that a new inspiration has come into their lives.

*There is a fine large house on the Farm, now unoccupied, which could be made available for broadening the work, could the Committee be assured of the financial support necessary for its maintenance.*

A sub-committee has been formed, under the chairmanship of Miss Gilpin, to look after the needs of the Department for Diseases of the Throat and Chest at 238 Pine Street. Milk

has been provided for a number of families; thus, in many cases, preventing tuberculosis. Financial help has been given where needed, in order to send patients, slightly affected, to sanatoria. Here, too, it is hoped that the work will broaden to take advantage of the many opportunities offered for service.

The "Clothes-Closet" Committee, with Mrs. Klopp as chairman, provides clothing for those leaving the Hospital. Before the formation of this Committee patients were often discharged with insufficient clothing; thus, in some cases, retarding their recovery. Accident cases, where the patients' clothes are badly torn or burned, are also provided from this supply. The mending of used garments sent to the Committee is cheerfully done by the women in the surgical ward. Seven hundred and forty-three articles were distributed to 140 patients during the year.

We record with appreciation the helpful enthusiasm of the first Secretary of the Committee, Mrs. Howard A. Davis, who resigned from the position during the year. Mrs. Wm. H. Greene has taken up the work with earnest interest. Miss Gertrude Goff was appointed Treasurer.

As to the personnel of the Department Miss Kane, who has had charge of the Children's Ward and Clinic for three years, volunteered for service in the Jefferson Base Hospital Unit and left her work with us in April, to our mutual regret. Miss Murphy, a graduate nurse, has taken her place.

The needs of the army have also caused us to lose Miss Wright, who served so efficiently as ward worker. She has now gone into the Home Service Branch of the Red Cross and will be at Camp Mills.

Miss Wasson, who has acted as Dietitian for some months, and who is well qualified for more general work, is to take her place, and Mrs. Jessie Baton has been appointed to succeed Miss Wasson.

LEAH GOFF JOHNSON,  
*Chairman.*

## **The Training School for Nurses**

The Training School for Nurses has been in successful operation for twenty-six years; at no time in its history has the school been more prosperous. The entire organization is under the direction of the Hospital Committee, to which, through the Medical Director, all matters of discipline and curriculum are brought for final consideration. Recognizing that proper teaching of the science and art of nursing can be best accomplished under the supervision of medical men, it has been provided that the course of study be formulated and directed by the Hospital Staff. For this purpose there is appointed annually a Committee of the Staff, known as the Training School Committee, consisting of six members, who outline the curriculum and designate the teachers of the separate branches.

The Directress of the Training School is the executive having immediate charge of the work done by the pupils; she supervises the practical instruction in wards, operating rooms, diet kitchen and in classes, for which purpose she is supplied adequate assistance. The Nurses' Home is under her immediate supervision, as is also the home life of the pupils in training and all her subordinates.

### **Courses of Study**

The course of study is three years, during which time the Directress of the Training School assigns each pupil, for definite periods, to the various wards and services. Such practical training under skilled supervisors best applies the science and most adequately teaches the art. The course of study is modified and improved year by year, always with the idea of betterment. Like all other professional schools, changes are necessary for improvement; to stand still is retrogression. Each year new subjects are introduced or old ones taught in new and, it is believed, better ways. The curriculum embraces a probation term of three months, a junior term of nine months, an intermediate term of twelve months, and a senior

term of twelve months. Practical work is given each nurse in the following:\*

Men's and Women's Medical Wards.....	7	Months
Men's and Women's Surgical Wards.....	7	"
Children's Ward .....	4	"
Roof-garden and special details .....	1	"
Private Corridors .....	4	"
Accident Ward and Dispensaries .....	2	"
Operating Rooms .....	3	"
Maternity Department .....	3	"
Department for Diseases of the Chest.....	3	"
Diet Kitchen .....	2	"

Approximately six months of night duty are given in two or more terms, rarely exceeding three months each, distributed in the above services.

## First Year

### INTRODUCTORY LECTURE

#### Preliminary Course, 1 Month

THE MEDICAL DIRECTOR. The Duties, Obligations, and Responsibilities of the Trained Nurse.

### BACTERIOLOGY AND HYGIENE

PROF. R. C. ROSENBERGER. Twelve Lectures. General distribution of Bacteria, how bacteria produces diseases. Epidemics of Diseases due to dissemination by Contact, Water, Milk, Carriers, Insects. Methods of obtaining Antitoxin and other sera, role of Vaccines. Disinfection by steam, hot air and chemicals. Dangers of dusts in various occupations.

### NURSING IN TUBERCULOSIS

#### Three Classes

ELMER H. FUNK, M.D. Tuberculosis—Frequency of infection and mortality, predisposing factors, methods of spread of the disease. The Social problem and the Nurse's position in the anti-tuberculosis crusade. The manifestations of the disease—the special knowledge which a nurse should have to successfully attend tuberculous patients. The temperature, pulse, etc. The care of the patient—rest—fresh air—properly prepared diet. The principles underlying and methods of application of these measures. Prophylaxis. Methods of disposal of sputum, excreta and of disinfection of articles in contact with patient. Nursing in emergencies such as Pulmonary Hemorrhage, etc. The preparation for paracentesis of the Chest.

---

\*Subject to change without notice. The management at all times reserves the right to make such changes as may seem wise without notice to, or consent of the pupil.

## **ORTHOPEDIC SURGERY**

**PROF. H. AUGUSTUS WILSON, M.D.** Care of Feet and Correct Walking.

## **PRACTICAL NURSING**

**Fifty Classes**

## **DIETETICS**

**Four Demonstrations. Twelve Classes**

Responsibility of the nurse in ordering, preparing and serving nourishments and regular diets. Measuring, combining ingredients. Preparation of eggs, of beverages, of nourishments. General rules for diet kitchen work. Care of diet kitchen equipment. Care of trays, linen, china, glass and silver ware. Setting and serving trays. Food. Composition, classification and caloric value. Protein, fat, carbohydrate, mineral matter, water. Methods employed in cooking food. Meat—Demonstration of different cuts. Menus for patients on regular and special diets, including color schemes. Metabolic diets.

## **MASSAGE**

**MARY G. CORBIN.** Twenty Demonstrations.

Recitations and demonstrations, including practical bedside work, are given by the Directress and her assistants.

## **Second Year**

## **GYNECOLOGY**

**PROF. E. E. MONTGOMERY, M.D.** Consequences and Sequelæ following Abdominal Operation.

**PROF. JOHN M. FISHER, M.D.** Two Lectures. Abdominal Operations.

**P. BROOKE BLAND, M.D.** Medical Gynecological Nursing. Nursing in Vaginal Operations.

**ALFRED HEINEBERG, M.D.** Two Lectures. Anatomy of Pelvic Organs.

## **DISEASES OF THE EYE**

**PROF. WILLIAM M. SWEET, M.D.** Anatomy of the Eye. Nursing in Diseases of the Eye.

## **DISEASES OF CHILDREN**

**PROF. E. E. GRAHAM, M.D.** Feeding of Infants and Children.

**JULIUS BLECHSCHMIDT, M.D.** Hygiene of the Nursery.

**RALPH ENGLE, M.D.** Nursing in Gastro-Intestinal and Respiratory Diseases.

**W. H. JOHNSTON, M.D.** Nursing in Fevers and Contagious Diseases.

## **SURGERY**

DUNCAN L. DESPARD, M.D. Fractures, Dislocations, Sprains, Anesthesia, Splints

### **SURGICAL NURSING**

Eight Demonstrations. Preparation of patient for Operation. Preparation of patient for Anesthesia. Instruments (Metal, Rubber, Silk, Glass, Illuminated), Preparation, Sterilization, Use and Care. Sterilizers and how to use them. Preparation of Special Binders, Bandages, Plaster Dressings, etc. Padding of Splints.

### **BANDAGING**

ERNEST MAIER, M.D. Twelve Demonstrations.

## **ANATOMY AND PHYSIOLOGY**

E. J. KLOPP, M.D. Twenty-five Lectures. Anatomy and Physiology of the Human Body.

## **MATERIA MEDICA**

LEIGHTON F. APPLEMAN, M.D. Drugs: Their Proper Names, Sources and Active Principles. Pharmaceutical Preparation of Drugs with their Definition and General Uses. Dosage and Methods of Administering Drugs. Physiological Actions of Drugs. Poisons; the Treatment of Poisoning. Counter Irritation. Hydrotherapy. Antitoxins; their Uses. Vaccines and their Applications. Review. Materia Medica. Twelve Classes.

Recitations and demonstrations, including practical bedside work, are given by the Directress and her assistants.

## **Third Year**

### **SURGICAL NURSING**

PROF. J. CHALMERS DAcOSTA, M.D. Two Lectures. Instruments and their uses

WARREN B. DAVIS, M.D. Five Lectures. Hemorrhage, Wounds and Burns. Shock, Treatment of Shock. Bites of Dogs, Insects and Snakes. Drowning. Asphyxia. First Aid to the Injured.

### **SURGICAL AND OPERATING ROOM TECHNIC**

WILLIAM H. SPENCER, M.D. Fifteen Classes.

### **OBSTETRIC NURSING**

PROF. EDWARD P. DAVIS, M.D. Obstetric Nursing in Private Houses; Complications of Pregnancy, Abortion, Eclampsia, Hemorrhage. Signs and Symptoms of Labor; Preparation of the Patient and her Room; the duties of the Nurse during Spontaneous Labor.

**COLLIN FOULKROD, M.D.** Obstetrics, Antisepsis and Asepsis; Signs, Symptoms and Treatment of Post-Partum Hemorrhage. Duties of the Nurse during Obstetric Operations; the Sterilization of Instruments, Dressings, Field of Operation, Operating Tables, the Posture of the Patient; the Anesthetist; Shock and Hemorrhage.

**GEORGE A. ULRICH, M.D.** The Normal Puerperal State. Complications arising during the Puerperal State for Mother and Child. The Infant, its Food and Dress. Bathing, Exercise, Development and Weaning.

## **OBSTETRIC NURSING**

### **Five Classes**

## **NURSING IN GENITO-URINARY DISEASES**

**PROF. HIRAM R. LOUX, M.D.** Nursing in Venereal Diseases; Methods to be adopted in Order to Prevent Contagion. Urethral Instruments, Care, Sterilization and Uses. Retention of Urine; Causes, Symptoms and Treatment. Uremia; Causes, Symptoms and Treatment. Hematuria; Causes, Treatment. Catheterism.

**E. D. FUNK, M.D.** Normal Urine. Deviations from the normal to be noted by the Nurse. Proper Method for collecting samples for Examination. Simple Emergency tests.

## **FEVER NURSING**

**FREDERICK J. KALTEYER, M.D.** Seven Lectures.

**ROSS V. PATTERSON, M.D.** Cardiac and Pulmonary Diseases.

## **MEDICAL NURSING**

### **Sixteen Classes**

## **DISEASES OF THE THROAT**

**PROF. CHEVALIER JACKSON.** Surgical Proceedings involving Larynx. Nursing care of Tracheotomy cases, etc.

**F. O. LEWIS, M.D.** Care of accident cases and of surgical proceedings involving Nose and Throat.

## **DISEASES OF THE EAR**

**PROF. S. MACCUEEN SMITH, M.D.** Anatomy of the Ear.

**A. SPENCER KAUFMAN, M.D.** Diseases of Middle Ear and Mastoid arising from acute infective diseases.

## **DISEASES OF THE SKIN**

**HENRY K. GASKILL, M.D.** Anatomy of the Skin. Suggestions on the care of Diseases of the Skin.

## **DISEASES OF THE NERVOUS SYSTEM**

**S. F. GILPIN, M.D.** Nursing in Organic Nervous Diseases. Nursing in Insanity. Nursing in Functional Nervous Diseases.

## DISEASES OF JOINTS AND APPLICATION OF PLASTER BANDAGES

ARTHUR J. DAVIDSON, M.D. Two Lectures.

Frequent recitations and demonstrations, including practical bedside work, are given by the Directress and her assistants.

During the year just ended twenty-nine nurses completed the course, graduating at Commencement held on May ninth. The number of graduates is now four hundred and forty-one.

During the year 604 inquiries were received and 245 applications were filed. The school census follows:

Pupil nurses and probationers, June 1, 1917.....	123
Graduated .....	29
Resigned and rejected.....	43
Admitted .....	89
Pupil nurses and probationers, May 31, 1918 .....	130

### Nurses' Home

The Nurses' Home, in addition to the dormitories, provides recitation, recreation, reading and reception rooms. Under proper regulations nurses are permitted to see and entertain their friends, enjoy social evenings, and every effort is made to secure something of home life and the pleasures of congenial companionship. A Committee of the Women's Auxiliary regularly visits the Home, provides comforts, and looks after the general welfare of the pupils. The social features of last Commencement were entirely under the direction of the Nurses' Home Committee of the Women's Auxiliary, to whom all were indebted for a most enjoyable occasion.

A Register of the Graduates of the Nurses' Training School is kept in the office of the Directress, and nurses are supplied on application by telephone, mail or in person. Alumnae are requested to keep the Directress informed as to their addresses, and whether engaged in or desiring private or institutional nursing or administrative work.

Applicants for admission to the Training School should call upon or address the Directress of the Training School for Nurses, Jefferson Hospital.

# Statistics

For the Years ending May 31, 1917, and May 31, 1918

## PUBLIC SERVICE

PATIENTS IN WARDS FIRST OF YEAR		1918	1917
Medical, Male .....		52	51
"    Female .....		34	38
Surgical, Male .....		99	85
"    Female .....		35	44
Gynecological .....		23	20
Obstetrical .....		31	28
Total .....		<u>274</u>	<u>266</u>

Patients admitted during year .....	5169	5810
"    treated during year .....	5443	6076

REAL ESTATE TRUST BUILDING,  
PHILADELPHIA, October 23, 1918.

We hereby certify that we have audited and examined the books and accounts of the Jefferson Hospital for its fiscal year ended May 31, 1918, and found them to be correct.

The operations of the year are correctly summarized in the report herewith submitted.

JOHN HEINS & Co.,  
*Accountants and Auditors.*

## Yearly Comparisons

## **Gifts by Will**

In the State of Pennsylvania, testamentary provision for a charitable institution must be by a will made at least thirty days prior to the decease of the testator. The signature of the testator must be attested by at least two subscribing witnesses, who should sign their names as witnesses thereto in the presence of the testator and of each other.

None of these witnesses should be interested in any manner in the institution intended to be benefited, as manager, trustee, officer, employee, beneficiary or otherwise.

The testator may either bequeath personal property or devise real estate to the institution generally, or may create an endowment whereby only the income therefrom shall be used for its benefit.

The following forms are suggested for a legacy of personal property and a devise of real estate, where it is intended that the same shall be devoted to the use of the Hospital generally without restriction:

### **FORM OF BEQUEST OF PERSONAL ESTATE**

I give and bequeath unto THE JEFFERSON MEDICAL COLLEGE, of Philadelphia, for the maintenance, extension or betterment of its Hospital Department, the sum of..... dollars.

### **FORM OF DEVISE OF REAL ESTATE**

I give and devise unto THE JEFFERSON MEDICAL COLLEGE, of Philadelphia, its successors and assigns, for the maintenance, extension or betterment of its Hospital Department (here describe the property).

If the testator shall desire to limit the use of the legacy or devise to a particular purpose, the following forms are suggested. Such purpose can be indicated by suitable designation to be added after the words "Hospital Department."

### **FORM OF BEQUEST OF PERSONAL PROPERTY**

I give and bequeath unto THE JEFFERSON MEDICAL COLLEGE, of Philadelphia, for the benefit of its Hospital Department (Here indicate the purpose) the sum of..... dollars.

### **FORM OF DEVISE OF REAL ESTATE**

I give and devise unto THE JEFFERSON MEDICAL COLLEGE, of Philadelphia, its successors and assigns, for the benefit of its Hospital Department (here indicate the purpose) (here describe the property).

If the testator shall desire that the legacy or devise shall create or form part of an endowment for a general or a special purpose, and only the income thereof be used for the benefit of the Hospital, the following forms may be found helpful. The purpose desired can be added after the words "for the endowment of."

### **FORM OF BEQUEST OF PERSONAL PROPERTY**

I give and bequeath unto THE JEFFERSON MEDICAL COLLEGE, of Philadelphia, the sum of.....dollars for the endowment of

### **FORM OF DEVISE OF REAL ESTATE**

I give and devise unto THE JEFFERSON MEDICAL COLLEGE, of Philadelphia, its successors and assigns (here describe the property) for the endowment of

**Among the purposes for which endowments are desired are the following:**

Hospital Department.

Rooms in the Hospital.

Any of the Wards of the Hospital Department and beds therein.

Maternity Department of the Hospital and rooms, wards and beds therein.

Children's Department of the Hospital and beds therein.

Social Service of the Hospital Department.

Operating Rooms in the Hospital.

Laboratories in the Hospital.

Departments of Research in the Hospital.

Dispensaries in the Hospital.

Building Fund of the Hospital.

Department for Diseases of the Chest.

Convalescent Care of Patients.

Nurses' Home.

If the testator shall desire to benefit the Hospital Department and to limit the use of the legacy or devise to a particular purpose, the following forms are suggested:

#### **FORM OF BEQUEST OF PERSONAL PROPERTY**

I give and bequeath unto THE JEFFERSON MEDICAL COLLEGE, of Philadelphia (Hospital Department) (here indicate the purpose), the sum of.....dollars.

#### **FORM OF DEVISE OF REAL ESTATE**

I give and devise unto THE JEFFERSON MEDICAL COLLEGE, of Philadelphia, its successors and assigns (Hospital Department) (here indicate the purpose) (here describe the property).

If the testator shall desire that the legacy or devise shall create or form part of an endowment for a general or a special purpose, and only the income thereof be used for the benefit of the Hospital, the following forms may be found helpful. The purpose desired can be added after the words "for the endowment of."

#### **FORM OF BEQUEST OF PERSONAL PROPERTY**

I give and bequeath unto THE JEFFERSON MEDICAL COLLEGE, of Philadelphia (Hospital Department), the sum of .....dollars for the endowment of

#### **FORM OF DEVISE OF REAL ESTATE**

I give and devise unto THE JEFFERSON MEDICAL COLLEGE, of Philadelphia, its successors and assigns (Hospital Department) (here describe the property), for the endowment of
